

ABOUT ME

As a dynamic technology leader, I am passionate about propelling innovation in cloud computing, artificial intelligence, and automation solutions. My goal is to contribute these cutting-edge skills to a progressive organization that values forward-thinking. With a robust background in technical sales, consulting, and customer engagement, I excel at nurturing high-performing teams that are dedicated to delivering solution-oriented results. My expertise lies in steering these teams toward success, ensuring that we not only meet but exceed our strategic objectives.

WORK EXPERIENCE

IBM
Madrid
Jan 2022 - Present

Principal Architect at Customer Engineering

- Unified Framework Creation: Spearheaded a cross-functional initiative to standardize IBM software architecture and deployment across platforms, hyperscalers, and global partner networks, ensuring scalability and alignment with security best practices.
- First-of-a-Kind Solutions: Architected Proof of Concepts (PoCs) using IBM Software and AI, facilitating seamless production transitions by coordinating with professional services and account teams.
- AI Evangelism: Actively promoted IBM's AI suite (LLMs, governance, data) to internal and external audiences, driving awareness and adoption across client engagements.

Dublin
Jul 2019 - Jan 2022

Worldwide Customer Engineering Technical Leader

- Hybrid Cloud Expansion: Led global technical sales teams in deploying hybrid cloud strategies through First-of-a-kind demos and PoCs, enhancing customer satisfaction and IBM's competitive positioning.
- Agile Team Leadership: Led a diverse team of ~30 professionals, guiding rapid MVP development via the IBM Garage Methodology.
- Asset Development: Directed the creation of reusable content for technical sales teams, generating tools that support client objectives and expand IBM's footprint.

New York
Sep 2016 - Jul 2019

Worldwide Strategic Projects Technical Leader

- Innovative Project Execution: Drove large-scale projects, generating \$55M in revenue by leveraging cutting-edge technologies and creating industry-first solutions featured in international publications.
- Executive Reporting & Strategy: Provided strategic insights to both internal and customer executives, fostering alignment on immediate and long-term goals.
- Industry Reference Creation: Partnered with sales and management to showcase these projects, establishing industry benchmarks and creating new business opportunities.

Dublin
Oct 2013 - Sep 2016

Worldwide Cloud Solution Architect

- Strategic Cloud Architecting: Acted as lead architect for IBM Cloud offerings and acquisitions, working with platforms like SoftLayer, OpenStack, CleverSafe, and Bluemix.
- Cloud Evangelism: Drove cloud adoption in traditional enterprises, highlighting the benefits of IBM's evolving cloud solutions.

Aug 2011 - Oct 2013

Technical Sales Architect

- Promoted cloud technology adoption within IBM and clients, exceeding 150% of targets by designing robust architectures across varying client sizes (from small to large) and sectors.

DENOE, SAAS SERVICES
Santander
Jul 2010 - Aug 2011

Technology Director & Co-Founder

- I co-founded this startup with focus on the emerging cloud technologies, building SaaS applications on AWS.

INNOVA CONSULTING
Santander
Oct 2008 - Jan 2011

Head of Systems Department

- Managed a sysadmin team (>8 people) supporting multiple startups, overseeing infrastructure scalability and optimization.

UNIVERSIDAD EUROPEA
Jul 2019 - Jun 2022

MBA Teacher: Cloud Business

- Delivered cloud business curriculum for the MBA IT module, educating future leaders on strategic cloud adoption and transformation.
